

Erratum to

Del Giudice, M. (2006). Increased residual variance at developmental switch points: statistical artifact or indicator of exposed genotypic influence? *Evolution*, 60, 192-195.

There is a mistake in the equations: the slope should be squared. The correct equations are:

$$\sigma^2_{\text{res}} = \sigma^2_{\varepsilon_{\text{my}}} + [f'(x)]^2 \sigma^2_{\varepsilon_{\text{mx}}} + \sigma^2_{\text{gen}} + \sigma^2_{\varepsilon} \quad (1)$$

$$\sigma^2_{\text{res}_{\text{sp}}} = \sigma^2_{\varepsilon_{\text{my}}} + (b_{\text{sp}})^2 \sigma^2_{\varepsilon_{\text{mx}}} + \sigma^2_{\text{gen}_{\text{sp}}} + \sigma^2_{\varepsilon} \quad (3)$$
